### State Convention.

(Murray City News-Republican.) The Republican State Convention at Dayton, has been the center of attraction this week.

Senator Foraker made a rousing speech Tuesday, casting epithets at Roosevelt and defying the people in the execution committee and Bossism and thereby infused again into the campaign.

Ex-Gov. Herrick was chosen temporary chairman and endeavored to bring about a good feeling and looked well to the rights and honor of our president. Herrick was once a victim of Dick and other Bosses and feels keenly his turn down. Congressman Burton stood for the vice and rights of the people against Foraker's defiance of the president and the great multitude of Ohio voters.

The convention was in the hands of the machine controlled in most respects. The convention sounds the key note for the campaign and if the signs are not deceiving, the Republican majority will be greatenthusastics endorsed Foraker for President in 1908, and his bold speech against Roosevelt and the general policy of the nation Republicans, made him a hero among the wire pulling politicians of the

HE negro who becomes a good citizen in all that is implied thereby will soon largely overcome the traditional prejudice which exists against his color. It is not only a good thing to have liberty, but it is essential that each and all should KNOW HOW TO ENJOY IT.

We should learn, first, that liberty is not license. We should respect the rights of others while insisting upon our own. If we are obedient to the law, if we are enamored of education, if we practice those virtues which are the basis of TRUE SOCIAL PROGRESS, if we are helpful to our neighbors, we can win respect and break down the barriers if there is prejudice against us.

It is not necessary for men to tear down others in order that they may succeed. Weak men are those who take no thought of their fellows in the struggle of life and seek to pull them down in order that they may rise. Such men there are, and all too many. BUT FORly reduced this fall again. Many TUNATELY THEY ARE IN THE MINORITY.

> Most people are willing to proceed upon the old fashioned principle of live and let live. While helping themselves, they are willing generously to aid others WHO ARE DESERVING. Each one should feel that he owes something to the people among whom he lives and that debt he can pay by making himself an orderly, intelligent and industrious member of the community.

> HELP OTHERS AND OTHERS WILL HELP YOU. You will get out of the world what you put into it and nothing more. If you make no contribution to the welfare of others you will have little coming to yourself.

To advance we must educate. There is nothing more important to learn than the fact that education is THE BASIS OF ALL PROGRESS in this country. It is essential not only to educate the head, but it is necessary to educate the heart and the hand as well. You must have education which is practical in its effect, which enables you to take hold of the common, EVERYDAY AFFAIRS of life and make yourself a useful citizen.

Education is not for the purpose of enabling you to get along without work, but to make your work count for the most. There is a vast amount of manual labor to be done. Do not get the perverted idea that manual work is degrading. Always be ready to perform your

Most of us, both white and colored, know what it is by our actual experience. We do not have less respect or have less the respect of others because we have engaged in it. On the contrary, we have more self respect and a greater measure of the respect of others because we have been willing to put our hands to the tasks about us and to MAKE OURSELVES USEFUL, helpful members of the community. Work! Work! This is the keynote of success.

It is one of the CONDITIONS of our existence. It is one of the good providences we enjoy in this world. The man who works with his hands, all other things being equal, is as good as the man who works

### The Inevitable Trinity Of English Speaking Races

IR CHARLES TUPPER looks across the Atlantic, as I do, and may some day yet rise from British imperialism up to race imperialism as absolutely necessary to save his country from drifting OUT OF THE MAIN CURRENT into the eddy. Cecil Rhodes did so after careful study of the problem and proved his race imperialism by bequests embracing the race.

It does not take much study to see that America in 1910 is to contain double the number Britain is of English speaking people, MEM-BERS OF OUR RACE, and a third more than all the world beyond her borders, Britain included, nor to see that at the present rate If any one knows how the party druggists, or two months treat- of increase she will soon have more than double the number in all the
